President Cleveland Said to Disapprove the Present System of Indian Management.

Preparing to Recommend Radical Changes in the Policy—Senator Van Wyck on Convict Labor.

The Resignation of Assistant Secretary of the Treasury Coon Requested—Other Washington Notes.

OPPOSED TO THE INDIAN POLICY.

WASHINGTON, Oct. 24.—It is reported that the President disapproves of almost every feature of the present system of Indian management, and will recommend to Congress radical changes in the methods of buying and issuing provisions and other supplies. The President believes, it is said, that if the army is to be expected to prevent Indian depredations the military authorities should be given the power to assist in removing the causes of dissatisfaction by providing for an honest distribution of supplies. This is the policy which has long been recommended by Generals Sheridan and Sherman and other high military officers.

NEW MAP OF THE ARCTIC REGION.

WASHINGTON, Oct. 24.—The hydrographic office has issued a new map of the Arctic region, which embodies the results of the latest explorations. The arrangement is such that the names and relative positions of all places around the polar basin can be seen without turning the map around, as is usually necessary, and the eye is not bewildered by a multitude of meridian lines converging at the pole. A very simple method of determining the latitude and longitude of any point is afforded by two lines intersecting, at right angles at the pole, along which the degrees are marked.

AGAINST CONVICT LABOR.

WASHINGTON, Oct. 24.—Senator Van Wyck called at the Treasury Department Thursday and left a note asking Secretary Manning to make a condition with contractors for the construction of public buildings in Nebraska that convict labor shall not be employed. In case the Secretary should think the law prohibited such a condition the Senator asked that the bidders for contracts be required to state whether or not they proposed to employ convicts upon public works.

CROOKED ACCOUNTS OF INDIAN AGENTS.

WASHINGTON, Oct. 24.—The Second Comptroller of the Treasury is making a thorough investigation of the accounts of Indian agents, which are reported to be in a very bad condition, and has already referred about a dozen cases to the Solicitor of the Treasury for suit to recover balances found due the Government.

THE PRESIDENT TO VISIT NEW YORK.

WASHINGTON, Oct. 24.—It is likely that the President will leave for New York next Friday and remain until after the election, casting his ballot for Hill; as also will Secretaries Manning and Whitney and Colonel Lamont, who are to constitute the party. The President will be a guest of his former law partner, Mr. Bissell, while in Buffalo, but he will be in New York for a day or two prior to the election.

ASKED TO RESIGN.

WASHINGTON, Oct. 24.—It is stated that Assistant Secretary Coon has been notified that his resignation is desired.

Sexton Defeats Vignaux.

NEW YORK, Oct. 24.—Billy Sexton defeated Maurice Vignaux in a fourteen-inch balk-line billiard game last night by only one point out of 250. The excitement in the last stages was intense. Sexton was a clear 100 points ahead, and wanted but nine to go when Vignaux needed 125. By runs of 31, 22, 20 and lesser ones, all, however, above 10, he secured 100, when Sexton needed but one point. The latter missed, and called for a glass of morizet to strengthen his nerves. Then Vignaux ran 27, and Sexton made the last point that gave him the victory.

National Christian Missionary Convention.

CLEVELAND, O., Oct. 24.—The National Christian Missionary Convention adjourned last night. General F. M. Drake, of Iowa, was elected President of the General Christian Missionary Society. Isaac Errett, of Cincinnati, was chosen President of the Foreign Missionary Society. A committee was appointed to attend the triennial conference of the Free-Will Baptists in October, 1886, with a view to uniting the two ecclesiastical bodies.

A Boy's Terrible Fate.

BEDFORD Pa., Oct. 24.—Sunday evening last a boy, aged thirteen years, a son of Joseph Smith, of Mann Township, this county, started toward town. Thursday morning his dead body was found on the mountain-side nearly devoured by some wild beast. A few weeks ago a young man, named Swartzweider, was attacked at night on horseback and severely injured by what is believed to be a panther.

Heavy Beef Contract.

GALVESTON, Tex., Oct. 24.—A special from Fort Worth to the *News* says: Isaac Dahman of this city has closed a contract with an English Syndicate to deliver on the wharf at Galveston fortnightly, for the next five years, three thousand frozen carcasses of beef cattle. The price stipulated is six cents per pound for the beef and nine cents for the hides. It is said the shipments will begin next week.

Killed by a Falling Arch.

SPRINGFIELD, Ill., Oct. 24.—One of the brick arches which held up the flight of stone steps at the east side of the State-House fell yesterday afternoon, carrying down ten workmen who were standing on it and burying them under the debris. One of the number, an old man named Patrick Flynn, was killed almost instantly, and seven were seriously injured.

The Glass-Workers' Strike Ended.

BOSTON, Oct. 24.—It is stated authoritatively that the striking glass-workers at the New England Glass-works in East Cambridge will return to work unconditionally Monday, and it is understood that other Eastern works will do likewise.

Deer in Wisconsin.

CHICAGO, Oct. 24.—Deer are unusually plentiful this fall in the woods along the Eau Claire and Chippewa Rivers. Large quantities of venison are said to have been shipped thence to this city, despite the Wisconsin law.

TRADE TOPICS.

No Special Change Noted in the Movement of Merchandize—The Record of Failures.

NEW YORK, Oct. 24.—Special telegrams to *Bradstreet's* report no special change in the general trade situation. At Boston business is quiet after the late exceptional activity. In some lines it is disappointing, yet the general confidence that sales are to increase rather than diminish remains unshaken. The dry-goods market is dull. There is a better demand for funds for use in regular trade channels. There is a fair demand for wool at seaboard markets for consumption. The larger factories are well stocked, while the smaller ones are buying freely for early wants. Manufacturing is relatively active and prices are firm. Holders regard the situation confidently and are not anxious to sell. Trade at Philadelphia is fair in some lines, but there is no general activity. The late mild weather has been a drawback. With a lower temperature better sales are expected. At Chicago the volume of trade is lighter than during last week. There is, however, considerable confidence that the up-grade movement is to continue. There has been some depression in feeling, owing to the decline in the price of wheat. Reports from interior points tributary to Chicago are moderately favorable, and while demand for funds therefrom is smaller it is still noticeable. There is less demand for currency from New York. At Pittsburgh, Cleveland, Burlington, Ia., St. Louis and St. Paul there is less activity in commercial circles. The wheat market has suffered a decline this week, cash at New York losing 2¾ cents, free sales increasing supplies in sight at home and abroad, and continued light exports contributed to this. Corn has been more firmly held owing to light stock, but wheat flour has been weaker, losing all of twenty-five cents per barrel for export. Provisions have been dull and lower, and ocean freights without features. The movement of commodities abroad has not gained. In grocery staples there has been an increased movement in sugar and coffee, but prices are weak. Tea is depressed. Dairy products are in steady demand for home consumption, but behind last year for export.

NEW YORK, Oct. 24.—There were 146 failures in the United States reported to *Bradstreet's* during the week, against 164 in the preceding week, and 234, 209 and 137 in the corresponding weeks of 1884, 1883 and 1882 respectively. Classified by sections and compared with last week, the result is as follows:

DYNAMITE ON THE TRACK.

A St. Louis Street-Car Demolished by an Explosion—A Passenger Seriously Hurt.

ST. LOUIS, Mo., Oct. 24.—Last night about 10:30 o'clock a street-car on the Washington avenue line struck an obstruction on the track at the corner of Eighteenth street and Washington avenue. An explosion instantly followed, and the car was badly wrecked. The floor and one side were torn out. There were several passengers in the car. Mrs. Shea was severely injured. It is supposed the explosive was placed on the track by some of the strikers, but no clue has yet been obtained and no arrests have been made.

Investigation has proceeded only far enough to find out that the whole affair is a mystery. Experts in handling explosives visited the scene, and agree that nitro-glycerine was used in the shape of a prepared cartridge, but the odor of gun-powder was very perceptible. Both the driver and the conductor on the car were new men. The affair will, when it becomes known through the newspapers, curtail street-car travel, and risks on street-car passengers will be classed as extra hazardous by life insurance companies.

Riel's Execution Postponed.

OTTAWA, Canada, Oct. 24.—At the Cabinet meeting Thursday it was decided to postpone Riel's execution until November 11. French-Canadians still express confidence that Riel will not be hanged, their hopes being based chiefly on the recommendation to mercy of the Regina jury.

La Minerve, a leading French paper of Montreal, believes that Riel is not entitled to sympathy simply because he is a French-Canadian, and adds that to make his cause the cause of a party would be fanaticism.

PARIS, Oct. 24.—M. Rochefort publishes an article in his newspaper, *l'Intransigeant*, defending the action of Louis Riel and attacking in a scurrilous manner Queen Victoria and the Prince of Wales. The latter part of the article has greatly angered the English colony in Paris and the best circles of French society.

A Blow to Canada's Lake Trade.

TORONTO, Oct. 24.—The order of Secretary Manning, of the United States Treasury, prohibiting the shipping of cereals in bond from American ports to American ports in Canadian vessels will have a serious effect on the Lake Superior lines, which are owned principally in Canada. Shippers here hope the Canadian Government will yet reach an arrangement with the authorities at Washington that will avert the enforcement of the order.

American Street Railway Association.

ST. LOUIS, Mo., Oct. 24.—The American Street Railway Association elected Julius S. Walsh, of this city, President yesterday; William J. Richardson, of Brooklyn, Secretary and Treasurer, and an Executive Committee of five. The association adjourned to meet on the third Wednesday of October, 1886, at Cincinnati. The delegates were banqueted by local street railway men last night.

Small-Pox in New Hampshire.

ESSEX, N. H., Oct. 24.—The town authorities yesterday quarantined the county house at Whallonsburg in which there are two cases of small-pox. Mary Lucey, a domestic residing at Keene, in this county, who arrived from Montreal on Monday ill with small-pox, is now in a critical condition. Great excitement prevails here.

Wife-Murder and Suicide.

MORAVIA, N. Y., Oct. 24.—At a very early hour yesterday morning Henry A. Dickinson, and old, and well-known citizen, shot and killed his wife, and then sent a bullet into his own body. He will surely die. Jealousy was the cause.

Thanksgiving Day in the Bay State.

BOSTON, Oct. 24.—The Governor of Massachusetts has appointed Thursday, November 26, as Thanksgiving Day.

FATAL FUMES.

A Terrible Disaster Occurs in a Sewer at the Stock-Yards in Chicago.

A Party of Five Workmen Overcome by the Deadly Gas—Three Lose Their Lives.

The Remaining Two Taken Out Almost Dead, but are Finally Fully Restored.

DEATH IN A SEWER.

CHICAGO, Oct. 24.—Treacherous sewer gas claimed the lives of three men in the town of Lake yesterday. Edward McCarthy, Peter Mooney and Stephen Brennock are dead from its effects, and John Smith and Patrick McInerney seriously ill. Brennock was the foreman of a gang of men in the employ of the Union Rendering Company, who had been engaged in skimming the grease from the filthy water that flows through the Stock-Yards sewer. The sewer crosses the stock yards in a southerly direction and empties into the stagnant south branch, and is the receptacle of the offal and filth of the packing-house district. Brenock was notified yesterday that the flow of the sluggish current was stopped, and was directed to remove the obstructions. After an investigation the obstacle was located in the northern division of the yards, near the outlet of an eighteen-inch drain-pipe, connecting the sewer with Armour & Co.'s packing house. The cover of a manhole was lifted and a ladder lowered into the thick, slimy pool below. The sewer is five feet in diameter and its bottom at this point is about ten feet below the surface of the ground. McCarthy and Mooney entered the sewer and after remaining a short time were compelled to come out for a breathing time. After a short period McCarthy and Mooney descended the ladder a second time to continue their work. A few steps from the foot of the ladder McCarthy, who was slightly in advance of his fellow-workman, encountered the flow of the deadly gas, and pitched forward on his face into the reeking cesspool. At the same instant the fatal blast struck Mooney, who turned to make his escape. He seized the rotten rung of the crazy ladder. It broke beneath his weight and he fell back against McCarthy's body. Brennock heard the cries of the suffocating men, and calling the other workmen to aid him descended to the rescue. He grasped Mooney, but the stifling fumes filled his throat and lungs, and he, too, fell into the sluice. Smith and McInerney started down the broken ladder to rescue Brennock. Before Smith reached the bottom of the ladder he was overcome by the gas. McInerney seized Smith by the coat collar and held him, while others pulled both men out of the death-hole.

A crowd had gathered by this time, and men ran to the packing-house for pike-poles. The gas poured out of the manhole in volumes sufficient to daze the by-standers; but the work of rescue did not flag. The pike-poles were twisted into Brennock's clothing and he was hauled out. A faint, flickering pulse was perceptible, and efforts to revive him were at once begun, which after a time proved successful, but the unfortunate man died late last evening. McCarthy's body was not found for three hours after his fatal entrance into the sewer, and he was, of course, quite dead, as was Mooney. Brennock and Mooney were married, the former leaving a wife and seven children, and the latter a wife and four children. Smith and McInerney will recover.

Ward's Trial.

NEW YORK, Oct. 24.—Ferdinand Ward almost staggered into the Criminal Court yesterday morning. His hair was unkempt, his coat needed brushing, and his face had a more unhealthy and haggard look than usual. The work of selecting the jury was taken up at the fifth man, and some of the answers to questions testing the competency of the jurors to try the case were remarkable. One man said he had fought under Grant, and the Judge could guess how he felt about Ward. He was excused, as was also a man who said he would hang Ward if he had a chance. Seven jurors were chosen yesterday. It is thought the jury will be completed to-day.

Moving Against the Chinese.

STOCKTON, Cal., Oct. 24.—At a meeting of three hundred citizens Thursday evening, presided over by Supervisor Inglis, resolutions were adopted for the removal of Chinatown from the city limits, and containing a pledge to vote against all nominees at the city election of November 3 not pledged for the removal of Chinatown. The movement includes some of the best citizens, and a permanent organization will be maintained.

Iron Works Burned.

BEAVER FALLS, Pa., Oct. 24.—The Pittsburgh Hinge and Chain Works, owned by Oliver Bros. & Phillips, were burned to the ground at five o'clock yesterday morning, entailing a loss of $25,000. The fire was caused by the watchman opening the natural gas valve too wide, permitting the flames to shoot to the roof and ignite the building. The fire will throw out of employment several hundred men.

Civil-Service Reform in the Navy-Yards.

NEW YORK, Oct. 24.—All the foremen in the Brooklyn Navy-Yard have received a copy of a circular-letter from Secretary Whitney, in which he says that, in recommending names for employment as subordinates, he expects them to be free from partisan bias and not to allow political dictation to influence them. Skill and efficiency are alone to be considered.

St. Louis Again Beaten.

CINCINNATI, O., Oct. 24.—The Chicagos again defeated the St. Louis ball club yesterday by a score of 9 to 2. The series between the two clubs for the championship of America has been reduced from nine to seven games, and the last game will be played in this city to-day.

A Father's Bloody Deed.

BINGHAMTON, N. Y., Oct. 24.—John Howell, a farmer residing near Starrucca, Wayne County, Pa., yesterday afternoon shot four of his children, ranging in age from three to eleven years, and then shot himself. His wife and eldest daughter were absent at the time of the tragedy.

Another Fatal Boiler Explosion.

PROVIDENCE, R. I., Oct. 24.—The boiler of a dredging machine in Stonington harbor exploded yesterday afternoon, killing one man and injuring three others.

THE FREE-TRADERS.

Preparations for the Coming National Convention at Chicago—Objects of the Meeting.

CHICAGO, Oct. 24.—The National Conference of Free Traders and Revenue Reformers will be held at Chicago, pursuant to call of the American Free Trade League, Wednesday and Thursday, November 11 and 12. The design is to unite those, of whatever political faith or party, who desire to co-operate in promoting the relief of the American people from the burdens of the present tariff, whether they believe in immediate and moderate reduction of taxes, in a more thorough change in our system of taxation. The league is endeavoring to raise a fund of $20,000 to push the cause of revenue reform, and to make ready for the Congressional elections of 1886. Among the topics that have been announced are the following: "The Tariff in Its Relations to Farmers," by J. Q. Smith, an Ohio farmer and wool grower; Thomas S. Shearman, who sends from Europe, where he is investigating the subject, an article on "Pauper Labor." Among other speakers expected are Henry Watterson, M. M. Trumbull, Prof. Canfield, of Kansas, and Josiah Quincy, of Massachusetts. The convention winds up with a grand mass meeting at Central Music Hall, at which Rev. Henry Ward Beecher and David A. Wells will speak.

THINKS IT WAS HIS SON.

An Interview with the Father of Maxwell, the Alleged Murderer of Preller.

ST. LOUIS, Mo., Oct. 24.—Samuel M. Brooks, the father of Hugh M. Brooks, who is held here under the name of Walter Lennox Maxwell for the murder of C. Arthur Preller, was seen by reporters last night. Mr. Brooks has not yet seen the prisoner, but says he knows that he is his son from facts learned of his attorneys and others. If he had not felt convinced of it he would not have come to this country. He says his son left home on January 19 of the present year without giving him notice of his intention, and he never heard from him again until he read in the newspapers that the man who murdered Preller was supposed to be Hugh M. Brooks. He, of course, does not think his son capable of committing the crime with which he is charged, and says he never heard of Preller until he read of the murder. He will visit Maxwell at the jail to-day. Chief-of-Police Harrigan received letters yesterday from the Chief of Constabulary in Hyde, England, positively identifying the prisoner as Mr. Brooks' son. The identification was made by photographs found in the prisoner's trunk, which were sent to Hyde, and proved to be pictures of Brooks, his mother and sister.

Too Horrible for Belief.

OMAHA, Neb., Oct. 24.—Information was received here yesterday regarding a dastardly deed committed near Waco, Neb., by a man named Brandt, who was running a thrashing machine. It appears that a boy aged thirteen years, while cutting bands, accidentally cut Brandt's hand. Brandt became enraged and told the boy that if he cut his hand again he would run him through the machine. The boy became excited, and in a few minutes again slightly cut Brandt's hand. Brandt thereupon seized the boy and shoved him into the cylinder head first. He was instantly killed, his head being almost completely torn from his body. Brandt fled, but was captured and taken to Waco, where he narrowly escaped lynching.

Slain by Moonshiners.

McVILLE, Ga., Oct. 24.—William Clemmons, newly appointed revenue officer, went into Montgomery County Thursday with two assistants to capture an illicit still. While passing along a lonely part of the road they were suddenly fired upon from ambush by moonshiners, and Clemmons and one of his companions was instantly killed. Officer Ross, the third man, had a wound in the side. Great excitement prevails in the locality, and a battle between the moonshiners and a posse of citizens is expected.

Foraker and Edmunds in New York.

NEW YORK, Oct. 24.—Madison Square Garden was filled to suffocation last night, it being the first Republican mass-meeting held in this city to indorse the State ticket. From an early hour crowds began to pour into the hall, and when the meeting opened fully 8,000 persons were present. Joseph H. Choate was made Chairman of the meeting. The principal addresses were made by Governor-elect Foraker, of Ohio, and Senator Edmunds, of Vermont.

Striving to Save a Judge's Head.

TUCSON, A. T., Oct. 24.—In view of the appointment of two new Associate Justices for the Supreme Court of Arizona it was unanimously decided at a full meeting of the bar held yesterday to send a dispatch to President Cleveland requesting him to recall the suspension of Judge Fitzgerald, as his removal at this time would create great confusion in the court, or that the suspension may not take effect until January.

Horrible Suicide of a Madman.

DENVER, Col., Oct. 24.—Jacob Kauffman, a respectable musician of this city, was found dead on the prairie near the Orphans' Home yesterday. His body was nude, covered with blood, and horribly lacerated. There was every indication that he had suddenly gone mad, and committed suicide by forcing his body back and forth through a barbed-wire fence eight times. No inquest was held.

A Great Bicycle Performance.

BOSTON, Oct. 24.—E. F. Ives, of Meriden, Conn., and W. A. Rhoades, of Dorchester, yesterday afternoon concluded their attempt to break McCurdy's bicycle record of 233 1-16 miles in twenty-four hours. They rode 58-inch machines, and completed 211 9-32 miles in twenty-three hours, fifty-eight minutes elapsed time: total riding time twenty-two hours one minute.

Chinese Turning the Tables.

SAN FRANCISCO, Cal., Oct. 24.—Sixty Chinese cigar-makers in the factory of Koenigsberger, Falk & Meyer, Pine street, struck work yesterday because the firm refused to discharge their white workmen. It is learned that the Chinese "union" of this city ordered the strike. This dictation by the Chinese that "white men must go" has created no small sensation.

Struck it Rich.

SAN FRANCISCO, Cal., Oct. 24.—Advices brought by the steamer City of Rio Janeiro, arrived yesterday from Hong Kong, state that Judge Denny, ex-United States Consul-General at Shanghai, has accepted the position as foreign adviser to the Government of Corea, with a salary of $1,000 a month.

THE REVIEW

BY JACK & MIZE.

HELL Gate is wide open, and everybody can get into New York.—[Boston Herald.

MISSISSIPPI state fair for colored people will be held this week at Jackson. An elegant display is promised, and a large attendance.

—NEIGHBORING cities are complimenting Decatur on the prospect of having the streets lighted with the electric light. The world moves! "Who would be a clam?"

IT is said that clams live to a great age! We know of a few who are not only old, but who are so tight-shelled as not to have learned that the world moves. "Who would be a clam?"

DON'T eat raw chestnuts in the dark. How would you like to be a poor, dear, defenseless, fat little worm and be crushed to death by a munching giant?—[Pittsburg, Pa., Bulletin.

WE have heard of a coupon clipper who threatened to have his harness mended at a different shop because Will Starr was in favor of the electric light. "Who would be a clam?" Will Starr wouldn't!

IT will occur to most people that it is about time for pious non-combatants north and south to lay down their guns. They have creeds particularly enjoining upon them the forgiveness of past injuries.—[Chicago Herald.

"THE Sword of the South" is a poem by Joaquin Miller which has failed to "shake the rafters of heaven," as he promised it would. Miller should beat his sword into a pruning knife and then apply it vigorously to his latest production.—[Louisville Commercial.

IF teachers wish to leave a notable impress upon the schools in which they are now working, we know of no way more suitable than doing something to improve the generally bleak and unattractive appearance of school buildings and school yards.—[The Educational Weekly.

THE southern outrage mill is closed and there is no immediate prospect of its being re-opened, but the outrage manufacturing business is by no means one of the lost arts. North of the Ohio there appears to be quite a boom in this great political industry.—[Washington Critic.

THE president is said to have some views of his own on the Indian problem entirely different from those upon which the attempt has been made to solve it. He believes that as the army is called in to restrain or punish the Indians, as may be necessary, it should have to do with carrying out measures for their management of Indians.

ENGLISHMEN should be keen enough to see that what these dastardly ruffians are alarmed for is not their precious skins, but their grinding rack rents—rents far in excess of those which English and Scotch landlords are every other day relinquishing with generous grace; and would perceive that what really perturbs the Irish landlords is that the attitude of the people is one of impregnable legality.—[United Ireland, Dublin.

A LEARNED sinner is far more harmful than an unlearned one. Rather let our pupils remain in the depth of ignorance profound than learned leaders in the hosts of evil. The time has come when the charge that our schools are "godless" should be met fairly and honestly. We cannot mince matters here. There is too much at stake. We must do one or two things, either teach morals and religion ourselves, or make provision for somebody else to do so.—[The School Journal.

MR. DEPEW'S letter concerning Gen. Grant and Andy Johnson is a matter of some surprise to many of the friends of both. Hon. E. B. Washburn says: "I do not wish to be brought into controversy, but I can say this, that at the time to which this letter refers I was living in Gen. Grant's house in Washington, and talked with him daily on all matters of public importance, and he never spoke of this matter to me. I know nothing about it, and consequently can give no opinion. It is all news to me." Hon. Lyman Trumbull says he never heard of anything of the kind at the time, knew nothing whatever about it, and didn't believe it was true.

JUDGE THOMAN, the democratic member of the civil service commission, has resigned. This is exceedingly appropriate. He was one of President Arthur's appointees. He is said to have made the same mistake as Dr. Gregory—made partisan speeches during the past campaign for his party. It should be understood that the members of this commission should have control of matters under the civil service law, but that they should not meddle in other political matters. If they are expected to be nonpartisan, they should be so in fact. This riding about at the government's expense, making partisan speeches in the name of nonpartisan reform is a fraud upon the people Let the new commission be composed of men who devote themselves entirely to business, and let partisan politics alone. This is the spirit, if not the letter of the law under which the commission was created. Let the law be observed, and if the people do not like it, let it be repealed.

—The present evenings are a little cool for out-door courting, but there is one enthusiastic couple on West Main street who do not seem to mind it in the least.

—The mere mention of the fact that Theodore Thomas and his celebrated orchestra will be here on Monday evening, ought to fill the opera house to the overflowing.

—Yesterday Misses Marian Ewing, Edith Lytle, Edith Moore, Harriet Griswold, Margaret Roberts and Maud Durfee, chaperoned by Misses Annie Jack and Jennie Durfee, made a trip to the woods north of the city to spend the day beneath the leaves of veriegated hues and gather nuts. —Charles Lowry, who recently arrived here from Chicago to take a position as bar-keeper at Taylor's saloon on the levee, met with a painful accident yesterday afternoon. He stepped from the rear door of Al Morgan's saloon, to a rotten cellar door, which gave way precipitating him to the cellar, a distance of six feet. His ankle was badly sprained and he received other painful bruises about the body. Mr. Lowry had to be driven to his hotel. and will very likely be laid up for several days.

—The Agnes Villa "Over the Garden Wall" company was not greeted with a very large house last evening. The company gave a very fair production of the comedy, which has been made popular by Mr. and Mrs. George S. Knight, and had they appeared here standing room would very likely have been the result. The Villa company, however, has some very clever people and last evening they did some very creditable work, which a larger audience and a little more enthusiasm would have made very enjoyable.

—Mr. Henry C. Allen, of Harristown, was in the city yesterday. On last Tuesday he had a sale on his farm, which was cried by Auctioneer J. W. Thornhill. Thirty-five head of grade short horn cattle, sixty head of graded and thoroughbred hogs and eight head of horses, including mares and colts were sold. The proceeds amounted to $3,000. The day was cool, but the attendance was nevertheless fully up to expectations, and the prices realized were very satisfactory to Mr. Allen. He expressed himself well pleased yesterday, with the result.

"Buttons"

The St. Louis Republican speaks as follows of the comedy "Buttons," to be presented here on Tuesday evening: "Mr. Tony Hart, late of the firm of Harrigan & Hart, and Mrs. Hart, nee Gertie Granville, opened an engagement at the Grand opera house last night in one of Wm Gill's latest productions, a three-act protean farce-comedy called "Buttons." It affords Mr. and Mrs. Hart and a really excellent company rare opportunities for the display of their talent. Mr. Hart is undoubtedly the best eccentric Irish female impersonator in the country, while Mrs. Hart has few equals in ingenne parts. Both are strikingly versatile and original, and it must be a very bad play indeed from which they can extract nothing really amusing. 'Buttons' is not a bad play, but on the contrary is very cleverly constructed, and may be ranked among the best of its class now before the public." Prices 35, 50 ane 75 cents.

The Second Marriage.

Yesterday a marriage license was issued to James H. McNeal and Mrs. Hannah McNeal, of Maroa, who were married on the spot by Squire Eyman. McNeal is under the gentle care of Sheriff Foster to answer the charge of bigamy, for which he was indicted by the last grand jury. A few months ago he was married to the same woman whom he yesterday claimed for his wife. Shortly after the first mentioned marriage, Annie McNeal, of Pennsylvania, put in an appearance and after claiming James as her own, commenced suit against him for bigamy, and now seems determined to prosecute him. She got a divorce at this term of court, and James took advantage of his freedom, and re-married his second wife, thus making as much of the proceedings square as possible.

A Grand Attraction.

To-morrow evening Theodore Thomas will appear at the opera house in this city, with his unrivalled orchestra of sixty expert musicians, who have won more enthusiastic admirers than any other traveling organization. The mere announcement of Thomas' coming, ought to be sufficient to completely fill the opera house. He will undoubtedly give one of the finest entertainments ever seen in the city. In addition to the orchestral music, Mr. Thomas has with him Mme Juch, whose clear, cultivated soprano voice has made her famous throughout the land, and also Mr. Paulet, a superb tenor. An evening of refined enjoyment may be anticipated. You will miss a rare treat if you do not attend.

An Exciting Race.

About five hundred people assembled at the tabernacle last evening to witness the second heat of the two-mile race for the championship badge of Decatur, which during the past week has been worn by Verge Sanders. The start was made at a quarter past nine with the following entries: Will McDaniel, L. H. Rude, Will Underwood, Lis Lyons, Verge Sanders, Ben Shockley, Al Thompson and Ben Hamill. The judges were Ed Alexander. Fred Mueller, Doug Abbot, M. L. Parker, Frank Malloy, Steve Morehouse, Sam Lyons and Mr. Bennet. Forty laps of the skating surface is called two miles. After a few turns the race narrowed down to Sanders and Rude, with the latter in the lead. Everytime they passed the judges' stand, the racers were greeted with loud applause. Sanders caught his opponent several times, but just when he could have gained a lead, he fell. He did this when there were but two or three laps to go, and then made another spurt and caught Rude on the last lap, but was struck by his arm and again sent to the floor He regained his feet and came in a few feet behind. Many people believed Sanders entitled to the badge, and claimed he had been fouled, but the judges gave it to Rude by a vote of 7 to 1. On the question of his having fouled Sanders they stood 4 to 4 Under the rules of the race, Manager Boynton says there would have had to have been three fouls before it could be claimed on that score. The time of the race was nine minutes and forty-one seconds.

A Broken Limb

Mrs. Anna A. Wight, mother of Mrs William Dodson, met with a painful accident at the residence of her son-in-law, on East Eldorado street, on Friday She had been sick abed for several days, and while her daughter was absent from the room, arose and endeavored to secure something she wanted. Mrs. Wight is well advanced in years, and being weak from her sickness, was not as strong as she believed herself to be. After taking a few steps she fell to the floor with considerable force and sustained a fracture of the right limb near the hip. As soon as discovered she was replaced in bed and Dr. Bumstead summoned. He set the broken bone and rendered other necessary surgical aid, and yesterday Mrs. Wight was resting as comfortably as could be expected under the circumstances.

The Event of the Season

Will be the Opening of elegant pattern hats and bonnets, at Mrs M L. McDonald's emporium of fashion, Wednesday and Thursday, October 28th and 29th. Miss Hodges, Mrs. McDonald's Chicago trimmer, acknowledges no superior, if any equal, in her art. She solicits a share of the patronage to convince one of the fact. As these days will be for the special purpose of displaying an elegant line of goods, all are cordially invited to inspect the same. o25dtf

A Fine Display

George Blume, the enterprising sewing machine dealer, had another splendid display in his show window last night. The workmanship was simply elegant. All made on the machines he sells. by himself or his employes Every passerby who has an eye for the beautiful was attracted to the window, and crowds of ladies stopped to admire. Can any one learn to do this elegant work? is often asked. Not every one, but any one having ordinary taste and mechanical skill. Every one cannot run a sewing machine successfully, but most people can, and if they but persevere, can do elegant work. Buy a good machine, such as Blume sells, and time and patience will result in good work.

EDITORIAL NOTES.

If one of the committee of one hundred reformers of Cincinnati is proven a perjurer, what need be expected for the thugs?

The Soldiers Home commission has shaken the mud of Springfield from its holy feet, and will hereafter cast its scattering votes in the great city by the lake.

Steve Dorsey says Mr. Vincent has made a most excellent judge. We fear Mr. Dorsy's indorsement of public men will not have much influence with the new administration.

The United States court is again in session in Chicago. If judge Blodgett can find time, he might sentence Gleason, the "fine worker," for complicity in election frauds last fall.

In Brooklyn the good name of the people is carefully shielded from the assaults of the slanderer. Lately one woman called another "a Shanghai hen," and the courts have just awarded her henship $500 damages for her injured reputation.

Ex-Gov. Hamilton, now of Chicago, is an attorney for certain railroad corporations. At a business meeting with a company of railroad magnates lately, he is said to have asked the question, "What is the use of the republican party any how?" This will seem strange language from one who has always been such a strong advocate of the methods and measures of the party.

There appears to be great anxiety on the part of certain would be prominent men to get their names in the papers in connection with Gen. Grant's, in matters pertaining to the war and reconstruction. Certain of these same people must be very forgetful, or great liars, from the contradictory stories that are being told. It is something like the paper war of "the generals" that has been going on for the past year.

CLAMOROUS FOR WAR.

Servians Eager for Hostilities to Begin—Cavalry Massing on the Bulgarian Frontier.

A Crisis in Peruvian Affairs—Compromise Proposed in the Burmah Difficulty—Other Notes.

SERVIA ON THE WAR-PATH.

London, Oct. 24.—Advices from the East are of a distinctly warlike tone, indicating that King Milan is fast giving way to the popular demand for an immediate beginning of hostilities, and has decided on a campaign of aggression. The whole Servian cavalry force has been ordered to proceed to the frontier with sabers sharpened. It is the prevalent opinion that the Government has hitherto hesitated to adopt active measures in deference to pressure from the Powers. The public is clamorous for war. The Prefect of Widden reports that two companies of Servian troops have occupied the heights at the extreme point of the frontier. Dispatches from Philippopolis state that the Mohammedans in Bulgaria and Roumelia who refused to fight against the Turks have consented to oppose a Servian invasion.

At the opening of the Parliament of Greece yesterday the King, in his speech to the Chambers, said that the rupture of the Berlin treaty by Bulgaria compelled Greece to prepare to maintain her interests. He eulogized the patriotism displayed by his subjects on leaving their peaceful vocations to muster under the flag of their country. He hoped the interests of the Powers in the maintenance of peace would enable them to adopt effectual measures for the restoration of a solid equilibrium among the Balkan nations. The King's speech was received with coldness by the general public.

A native of Albania yesterday made an unsuccessful attempt to shoot the Montenegrin Minister of War at Cattaro. When arrested the man coolly avowed that he was a member of a conspiracy formed against the frontier delimitation commission. He was summarily executed.

THE DANISH PREMIER INDORSED.

Copenhagen, Oct. 24.—The Landsthing, or upper house of Parliament, has unanimously indorsed the policy of M. Estrupp, President of the Council, and denounced the recent attempt to assassinate him.

[The Landsthing, which is the aristocratic body of the Danish Parliament, consists of sixty-six members, and has warmly supported the measures of the Estrupp Cabinet. The Folkthing, or lower house, which is composed of 102 members elected by universal suffrage, has been bitter in its denunciation of the Premier and of the King's course in retaining him in office, and has refused to vote the budget.]

THE CAROLINES AGAIN.

Madrid, Oct. 24.—The populace are becoming incensed at the reticence of the Government regarding the negotiations on the Carolines question, and fears of an outbreak are entertained. The German Legation is strongly guarded, to prevent a repetition of the recent outrage. Spanish accounts of the German occupation of Yap confirm the report thereof telegraphed from Berlin.

THE ARMSTRONG ABDUCTION CASE.

London, Oct. 24.—The trial of Mr. Stead, editor of the *Pall Mall Gazette*; Rebecca Jarrett, Mr. Bramwell Booth, Mrs. Dowd, Mr Sampson, Jacques and Louise Mourey, defendants in the Eliza Armstrong abduction case, began yesterday before Mr. Justice Lopes, at the Central Criminal Court. The defendants pleaded not guilty. The trial will probably last a week. The defendants are charged with misdemeanor instead of felony, so as to enable them to testify in their own behalf and be liberated on bail during the progress of the trial.

ARBITRATION ADVISED.

Paris, Oct. 24.—The Burmese Envoy handed a note to Lord Lyons, the British Ambassador, in which he stated that he had sent a dispatch to his Government, advising them to accept arbitration for the settlement of the dispute with England, and that he was certain they would be glad to restore friendly relations with Great Britain. European residents in Burmah, he said, were perfectly safe. The people of that country had no desire to be hostile to England. The *Journal des Debats*, commenting on the British expedition against King Theebaw urges the French Government to protest against any sort of British annexation of Burmah.

MATTERS AT A CRISIS IN PERU.

Panama, Oct. 24.—News may be looked for from Peru at any moment of a decisive battle between the rebel Caceres and his followers and the Government forces. An encounter is inevitable unless Caceres retires to the interior. A defeat suffered by the Government would probably be fatal to its existence, as its resources are not sufficient to organize another expedition of the magnitude of that now in the field. Should Caceres be badly worsted he would not be able to keep the remnants of his forces together. Commerce is at the lowest ebb in the history of Peru.

AFGHANISTAN SECURES ZULFIKAR.

London, Oct. 24.—The delimitation of the Zulfikar Pass region is finished. England has secured for Afghanistan the control of the complete military position.

Increased Rate of Taxation.

Springfield, Ill., Oct. 24.—The Governor and Auditor yesterday fixed the State tax-rate at forty-two cents on $100, which is necessary to raise $3,000,000 revenue. This is made up of twenty-eight cents for general State purposes and fourteen cents for school purposes. The rate last year was thirty-five cents on $100.

GRANDMOTHER

Used herbs in doctoring the family, and her simple remedies DID CURE in most cases. Without the use of herbs, medical science would be powerless; and yet the tendency of the times is to neglect the best of all remedies for those powerful medicines that seriously injure the system.

MISHLER'S HERB BITTERS

is a combination of valuable herbs, carefully compounded from the formula of a regular Physician, who used this prescription largely in his private practice with great success. It is *not* a drink, but a medicine used by many physicians. It is invaluable for *DYSPEPSIA, KIDNEY* and *LIVER COMPLAINTS, NERVOUS EXHAUSTION, WEAKNESS, INDIGESTION, &c.;* and while curing will *not* hurt the system.

Mr. C. J. Rhodes, a well-known iron man of Safe Harbor, Pa., writes:
"My son was completely prostrated by fever and ague. Quinine and barks did him no good. I then sent for Mishler's Herb Bitters and in a short time the boy was quite well."

"E. A. Schellentrager, Druggist, 717 St. Clair Street, Cleveland, O., writes:
"Your Bitters, I can say, and do say, are prescribed by some of the oldest and most prominent physicians in our city."

DYSPEPSIA.

Sedentary habits, mental worry, nervous excitement, excess or imprudence in eating or drinking, and various other causes, induce Constipation followed by general derangement of the liver, kidneys, and stomach, in which the disorder of each organ increases the infirmity of the others.

The immediate results are Loss of Appetite, Nausea, Foul Breath, Heartburn, Flatulence, Dizziness, Sick Headaches, failure of physical and mental vigor, distressing sense of weight and fullness in the stomach, and increased Costiveness, all of which are known under one head as **Dyspepsia.**

In every instance where this disease does not originate from scrofulous taint in the blood, Ayer's Pills may be confidently relied upon to effect a cure. Those cases not amenable to the curative influence of Ayer's Pills alone will certainly yield if the Pills are aided by the powerful blood-purifying properties of Ayer's Sarsaparilla.

Dyspeptics should know that the longer treatment of their malady is postponed, the more difficult of cure it becomes.

Ayer's Pills

Never fail to relieve the bowels and promote their healthful and regular action, and thus cure **Dyspepsia.** Temporary palliatives all do permanent harm. The fitful activity into which the enfeebled stomach is spurred by "bitters," and alcoholic stimulants, is inevitably followed by reaction that leaves the organ weaker than before.

"Costiveness, induced by my sedentary habits of life, became chronic; Ayer's Pills afforded me speedy relief. Their occasional use has since kept me all right." Hermann Bringhoff, *Newark, N. J.*

"I was induced to try Ayer's Pills as a remedy for Indigestion, Constipation, and Headache, from which I had long been a sufferer. I found their action easy, and obtained prompt relief. They have benefited me more than all the medicines ever before tried." M. V. Watson, *152 State St., Chicago, Ill.*

"They have entirely corrected the costive habit, and vastly improved my general health." Rev. Francis B. Harlowe, *Atlanta, Ga.*

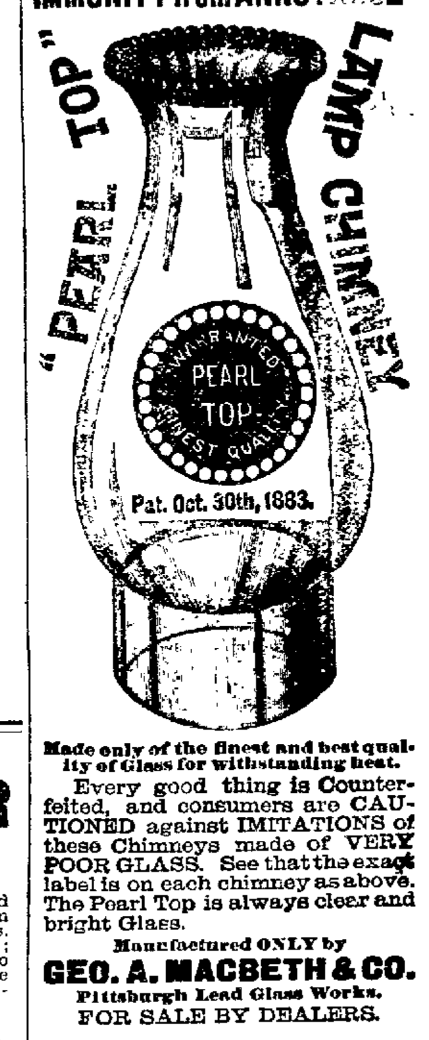

"The most effective and the easiest physic I have ever found. One dose will quickly move my bowels and free my head from pain." W. L. Page, *Richmond, Va.*

"A sufferer from Liver Complaint, Dyspepsia, and Neuralgia for the last twenty years, Ayer's Pills have benefited me more than any medicine I have ever taken." P. R. Rogers, *Needmore, Brown Co., Ind.*

"For Dyspepsia they are invaluable." J. T. Hayes, *Mexia, Texas.*
